

NEW FLYER
CONNECT®

A powerful management tool that puts real-time information of your entire fleet at your fingertips.

What's the Status?

New Flyer Connect® is an exclusive and state-of-the-art telematics solution designed to give you greater and smarter oversight of your whole operation, improving bus uptime and lowering costs, without requiring more work.

Saves Money

Solves Problems

Saves Time

New Flyer Connect® Features.

Built-in Smart Technology

Our on-board technology communicates real-time GPS and analytic data to ensure optimal bus performance and safety.

Powerful Management Tool

New Flyer Connect® monitors all vehicle on-board controllers and systems, while recording GPS location for real-time monitoring and two-way communication with buses.

Fuel Savings

New Flyer Connect® finds fuel savings and energy efficiencies by identifying smart routes.

Breakdown Prevention

Knowing about a problem before it becomes a breakdown is key to successful fleet management.

Fully Customizable

Data reports are only important when the information they contain matters to you. We can adapt them to meet your specific goals and needs.

Remote Access & Real-Time Alerts

No matter your location or device, the entire suite of information is accessible - with real-time event notifications sent as issues arise.

Constant Collaboration

Our Active Centre Support team monitors your fleet and sends an interactive report each week about the overall performance of your fleet.

The Stats.

* based on case studies conducted on buses in Europe and the UK by New Flyer's technology partner.

** based on case studies conducted on light and heavy trucks in Europe and the UK by New Flyer's technology partner.

Why New Flyer Connect®?

Flexible

Easy to deploy, compatible with multiple vehicle platforms and requires minimal IT infrastructure.

Builds Strong Teams

Improve your training strategies with insightful reports that show opportunities for improved driver performance.

Secure

Protected and monitored by state-of-the-art cyber security technology.

Mobile App

Fleet information at your fingertips with the easy-to-use mobile application for iOS and Android.

Always Up To Date

Each bus has the latest software versions with secure over-the-air updates.

New Flyer Connect® Mobile App

Analytics can be retrieved 24/7 via laptop or mobile device.

Introducing **CONNECT 360™**

Connect 360™, operated by New Flyer Connect®, is included on every new zero-emission Xcelsior CHARGE™ bus and tracks battery-electric bus performance using secure technology.

Connect 360™ is a customizable performance dashboard that provides smart analytic reporting to expand insight and intelligence for managing your Xcelsior CHARGE™ battery-electric buses.

It provides an easy-to-read visual report for battery-electric bus and operator performance, allowing you to better understand this new technology to maximize efficiency, reliability and sustainability, and seamlessly transition to a high-performing zero-emission fleet.

Benefits.

- Additional range capability with improved driver performance.
- Decision-making information to optimize charging strategies.
- Intelligence on how to preserve battery energy throughout the day.
- Reduced operating cost and maximum fleet utilization.

Key Analytics.

Real-time performance statistics are displayed in easy-to-read graphs and measurements. This helps you optimize your zero-emission bus fleet – from bus drivers and passengers, to maintenance and scheduling teams.

- ✓ Battery state-of-charge.
- ✓ Outside air temperature trends.
- ✓ GPS location and average speeds.
- ✓ HVAC energy consumption per mile.
- ✓ Regenerative braking.
- ✓ Range achieved and remaining.
- ✓ Energy consumption (kWh/mile).

VIC | VEHICLE INNOVATION CENTER

Key analytics for Connect 360™ were developed through New Flyer's Vehicle Innovation Center, North America's first innovation lab dedicated to the exploration and advancement of bus and coach technology. To date, Connect 360™ remains the **only reporting technology of its kind** for battery-electric buses in North America.

It's bright ahead.
Smart buses for smart cities.
